Participants:

- Table of standard minimum number of participating legal entities for all funding schemes used in the call, in line with the Rules for Participation:

Funding scheme	Minimum conditions
Collaborative Projects	At least 3 independent legal entities, each of which is established in a MS or AC, and no 2 of which are established in the same MS or AC
Coordination and Support Actions (coordinating action)	At least 3 independent legal entities, each of which is established in a MS or AC, and no 2 of which are established in the same MS or AC
Coordination and Support Actions (supporting action)	At least 1 independent legal entity.

Only information provided in part A of the proposal will be used to determine whether the proposal is eligible with respect to budget thresholds and/or minimum number of eligible participants.

Budget constraints:

--

Grant Information:

the FP7 'Rules for Participation'

propose three potential forms of grant for the European Union financial contribution: reimbursement of eligible costs, flat rate financing including scale of unit costs, and lump sum financing.

In this work programme, for all funding schemes, the reimbursement of eligible costs (including the different options for flat rates on indirect costs as established in Article 32 of the Rules for Participation) will be the only form of grant used. Pursuant to Article 30 of the Rules for Participation, participants from International Cooperation Partner Countries may choose to opt for lump sum financing.

Giving the limited amount of budget available, and the downstream character of the research, requiring a high financial commitment by proposers, the upper limits foreseen in the call FP7- GALILEO – 2011 – GSA–1 are lower than the upper limits foreseen in the Rules for Participation (Article 33) for the European Union financial contribution, and are summarized in the following table.

Collaborative projects	Non-profit public bodies, secondary and higher education establishments, research organizations and SMEs	All other organizations
Research and technological development activities	60%	40%
Demonstration activities	50%	40%
Management, audit certificates and other activities	100%	80%
