INTERNATIONAL BUSINESS DEVELOPMENT MANAGER - HEALTH

Established in 1906, Leitat is a technological center whose mission is to manage technologies to create and transfer social, environmental, economic, and industrial value to companies and institutions by means of R&D&I. Leitat works with more than 45 countries and develops over 215 projects annually in the fields of circular economy, biotechnology, bioeconomy, health, advanced materials, industrial chemistry, renewable energies, and new production processes. Leitat is strongly committed to over 1500 customers that benefit from our creative and innovative solutions.

We are currently looking for International Business Development Managers (BDM) to join the Promotion & Management team. We are welcoming applications from candidates that have an health-related background. This person will closely work with researchers and area managers on the definition of the strategy of the center and promote Leitat's capacities to foster collaboration among different entities to carry out R&D&I activities. This person will have an active role in consortium and proposal building, mainly for Horizon Europe. The position requires a high learning level as well as cross-fertilization of ideas and experience among multidisciplinary professionals. We highlight enthusiasm, improvement, and respect among Leitat values. We are looking for a person that could bring professionalism, positivity, honesty, integrity, innovation, and resilience.

Job Description:

Business development, networking, and proposal writing:

- Definition of the strategy and priorities of Leitat within the specific area of Health. Promotion of Leitat's capacities and activities within this field.
